Luther Manor activity professional wins national award

Jean Tillmann, Luther Manor Activity Specialist, won the 2009 Activity Assistant of the Year award from the National Association of Activity Professionals at the conference in Albuquerque, N.M. She also received the 2008 State Activity Award of Excellence from the Wisconsin Representatives of Activity Professionals in September.

Jean was recognized for her dedication to residents. For three years she has been providing a creative outlet for residents in group art classes, engaging residents in conversations about the days happenings and times passed, and hosting teas and luncheons to celebrate special occasions.

She said she was always meant to work with older adults. "God puts you in different places for a special reason," Jean said.

Jean is a member of the Milwaukee Area Activity Professionals, and is a regional representative to the Wisconsin Representatives of Activity Professionals.

She is also a member of the Milwaukee Area Teachers of Art (MATA) and will have her work featured in the 68th Annual MATA Membership Show. The exhibit will be on display in the 100 East Building, Milwaukee, until Friday, June 12.

Luther Manor has been caring and advocating for seniors for more than 50 years. In addition to independent housing, assisted living and long-term care options, Luther Manor provides rehabilitation, adult day and supportive services, hospice care and community outreach programs.
